ENGR. JOHN MICHAEL C. RAMIREZ

REVIT STRUCTURAL MODELER

Santa Ana, Manila, Philippines | +63 956 053 5570 | jhnmchiramirez@gmail.com
LinkedIn: linkedin.com/in/john-michael-ramirez-56ab46197 | Portfolio: jhnmchiramirez.github.io

PROFESSIONAL SUMMARY

Licensed Civil Engineer with over 6 years of structural engineering experience, including 4 years of hands-on structural BIM modeling using Autodesk Revit. Experienced in developing structural models and construction documentation for reinforced concrete and steel structures, with a strong understanding of structural design intent, detailing, and constructability. Proficient in Revit, AutoCAD, and structural analysis software, with experience using Dynamo and Python to automate repetitive BIM and documentation workflows.

TECHNICAL & CORE SKILLS

BIM Modeling: Autodesk Revit, Structural BIM Modeling, Structural Framing, Reinforced Concrete & Steel Modeling, Construction Documentation, Structural Detailing

BIM Automation: Dynamo, Python, Revit Automation, CAD Automation (Computational Engineering, Automation Scripts, AI Integration, Dynamo scripting)

Drafting & Documentation: AutoCAD, ZWCAD, Bluebeam Revu, Structural Drawings, Rebar Detailing

Codes & Standards: National Structural Code of the Philippines (NSCP), American Concrete Institute (ACI), American Institute of Steel Construction (AISC), American Society of Civil Engineers (ASCE 7), AS/NZS Standards.

PROFESSIONAL EXPERIENCE

Structural Engineer II — *Abinales Associates Engineers + Consultants*

Kapitolyo, Pasig City, Philippines | July 2020 – Present

- Develop and maintain structural BIM models in Autodesk Revit for reinforced concrete and steel building projects, translating structural design intent into coordinated, constructible models and documentation.
- Produce structural construction drawings, details, schedules, and permit documentation using Revit and AutoCAD, ensuring consistency between the structural model and drawing deliverables.
- Develop and implement Dynamo and Python automation workflows within Revit to automate repetitive modeling, detailing, and documentation tasks, reducing production turnaround time by 25%.
- Coordinate structural models and drawings with architectural and other project requirements, identifying constructability issues and minimizing design and documentation revisions.

Structural Engineer — *Independent Design Consultant (Contract / Project-Based)*

Manila, NCR, Philippines | June 2022 – January 2026

- Delivered structural design, modeling, detailing, and construction documentation for 25 residential and commercial projects.
- Served as Structural Engineer of Record (SEOR) for 3 projects, coordinating structural calculations and regulatory documentation.

Site Engineer & Cost Estimator — *Firmbuilders, Inc.*

Boni Avenue, Mandaluyong City, Philippines | November 2019 – May 2020

- Prepared structural and architectural quantity take-offs (QTO) and cost estimates.
- Supervised multidisciplinary construction activities to ensure compliance with approved structural designs.

EDUCATION

Bachelor of Science in Civil Engineering - *Rizal Technological University, Mandaluyong City (2015 – 2019)*

Civil Engineering Technology Diploma - *Rizal Technological University, Mandaluyong City (2014 – 2017)*

PROFESSIONAL LICENSES & AFFILIATIONS

- Professional Regulatory Commission (PRC) | Licensed Civil Engineer, Reg No. 0174546
- Philippine Institute of Civil Engineers (PICE) | Regular Member
- Association of Structural Engineers of the Philippines (ASEP) | Active Member

---

SEMINARS, WORKSHOPS & TECHNICAL TRAININGS

- Comprehensive Training in Building Modeling, Analysis and Design using Midas Gen – MIDAS IT Philippines (January 2026)
- Influence of Cracked Concrete to Post-Installed Anchor Design – HILTI Philippines (June 2025)
